

Bilkent University

Faculty of Engineering

01.02.2024

To Whom It May Concern:

This is to state that the Computer Engineering, the Electrical and Electronics Engineering, the Mechanical Engineering, and the Industrial Engineering Departments at Bilkent University require that each student must complete a mandatory summer training program for at least 20 (twenty) working days during the Summer, at the end of the 2nd and 3rd years.

When our students complete their mandatory summer training programs, they are obliged to return to Bilkent University and take the remaining units of study in order to graduate.

Assoc. Prof. Barbaros Çetin
Associate Dean
